Bhopal, the 29th June 2013

No. F-4-50-2013-2-LV.—The State Government hereby makes following **Medical Education Investment Implementation Policy, 2013** for Establishment of Medical College in Madhya Pradesh, namely :—

MEDICAL EDUCATION INVESTMENT IMPLEMENTATION POLICY-2013

1. **Short Title and Commencement.**—1.1 This policy shall be called “Medical Education Investment implementation Policy—2013” (Policy).

1.2 The Policy shall come into force on the date of its publication in the official Gazette of Government of Madhya Pradesh.

2. **Preamble.**—The Government of Madhya Pradesh (M.P.) is committed to provide excellent health care facilities to its citizens, through Medical Colleges, district and block hospitals for tertiary, secondary and primary health care facilities respectively. The Medical colleges play an important role in providing not only the tertiary health care but also the qualified physicians and surgeons to district and block hospitals in addition to private sector. The promotion of Medical Education is all the more important since the doctor population ratio in the State being far below the national ratio of 1:1700, and international ratio of 1.5:1000. With a view to bringing the health care facilities to national/international standards promotion of Medical Education in the State is a dire necessity.

It is not possible for the public sector to meet these challenges, in the Medical Education sector, in view of its limited capabilities for additional Capital mobilization. The “Public Private Partnership” (PPP), is a unique and innovative method of involving Private sector in the nation building activity and accelerating the delivery of public services including medical and health services of high quality without straining scarce public resources too much.

There is need, therefore, to promote private sector investment in Medical Education and Health sector in order to facilitate establishment of quality Medical Colleges within the frame work of set standards and norms. Private

sector can play an important role to supplement the State Government efforts in the fields of tertiary and secondary health care and diagnostic services. With the help of private sector participation, the State can maximize the benefits to its populace and also contribute to the opportunities in medical tourism.

3. **Definition.**—(a) **BPL** (Below Poverty Line) **Patient** is one who has been issued a BPL card by an authorized official (or Competent Authority) of the Government of Madhya Pradesh.

(b) **'Capital Investment'** shall include cost of setting up of project. However it will not include working capital and operative expenses. The cost of technical and management consultants will be considered as a part of project cost. Cost of land will not be included in the project cost in such cases where Government land has been offered to the project at subsidized rates.

(c) **'Healthcare Sector'** to be covered under this policy includes all units which are engaged in providing goods and services to treat patients with curative, preventive, therapeutic, rehabilitative and palliative care.

(d) **Healthcare Investment Policy 2012** means Healthcare Investment Policy 2012 published by Government of Madhya Pradesh.

(e) **Investor** means-registered firm, society, companies and trust interested in setting up Medical College and associate Hospitals in Madhya Pradesh.

(f) **'IPP 2010'** means Industrial Promotion Policy-2010 of Government of Madhya Pradesh as amended in 2012 and its further amendments from time to time.

(g) **'Medical Colleges'** are institutions that impart education on medical courses, specialty and super specialty treatment as specified and regulated by the Medical Council of India and are licensed, setup and run as per the norms of Medical Council of India.

(h) **State** means state of Madhya Pradesh.

(i) **State Medical Planning and Resource Committee** means such committee as may be constituted by the State Government to promote investment and regulate functioning of private hospitals, Medical & Dental Colleges and Health Care Institutions, promoting Medical Tourism and Complementary & Alternative Medicine.

4. **Objectives.**—The objectives of the policy are as follows :—

- (i) To improve the accessibility of Medical Education in the State.
- (ii) To ensure promoting best in class infrastructure for Medical Education.
- (iii) To promote Medical and Allied Education infrastructure to ensure availability of quality professional man power for Medical & Health Sector.
- (iv) To promote and establish Madhya Pradesh as a Medical Tourism destination of choice.
- (v) To ensure delivery of quality health care at reasonable and affordable cost.
- (vi) To promote Public Private Partnership in Medical and Health Sector.

5. **Strategy.**—Medical Education and Health care is a very competitive and capital intensive sector. It often requires various fiscal and non-fiscal incentives from Government for delivering quality services on sustainable basis. One of the major component of Medical Education and Health care is availability of suitable land which affects the commercial viability.

6. **Relevant Policies of the State Government.**—The Government of Madhya Pradesh under this policy will provide and facilitate as per provisions (which are applicable) made in IPP 2010, Healthcare Investment Policy 2012, Revenue Dept. GoMP policy 2013 (Annexure 1-3).

7. **Projects under the Policy.**—Only those projects will be considered under this policy whereby the investor proposes to establish a new medical college with associate hospital as per MCI norms. Investors may refer to norms of MCI for establishing a Medical College.

8. **Selection Criterion.**—(i) GoMP will invite proposals from investors (registered firms/society/companies/trusts) from time to time for selection of projects under this category through selection criterion with points/marks given to several factors including number of seats for annual intake in MBBS course, percentage of free beds for BPL patients in the hospital and percentage of seat sharing with GoMp.

(ii) The investors should give commitment of minimum capital investment of INR 300 crores to be made within a period of 5 years.

(iii) Every such applicant shall be evaluated against each of the qualification criteria as specified in **Table-1** below. Upon eligibility, the available land shall be offered on the basis of total points obtained on all the required criteria. The investor applicant securing the highest total point will be selected for allotment of land and other incentives as applicable and as per the Healthcare Investment Policy, 2012 :—

TABLE-1

Sr. No. (1)	Qualification Criteria (2)	Points (Max 100) (3)
1.	Number of seats for annual intake in MBBS course :	
	(a) 50 seats	(a) 05
