prescribed course satisfactorily to be eligible to appear for the respective examinations.

Program/Course credit structure

As per the philosophy of Credit Based Semester System, certain quantum of academic work viz. theory classes, tutorial hours, practical classes, etc. are measured in terms of credits. On satisfactory completion of the courses, a candidate earns credits. The amount of credit associated with a course is dependent upon the number of hours of instruction per week in that course. Similarly, the credit associated with any of the other academic, co/extra-curricular activities is dependent upon the quantum of work expected to be put in for each of these activities per week.

a. Credit assignment

i. Theory and Laboratory courses Courses are broadly classified as Theory and Practical. Theory courses consist of lecture (L) and /or tutorial (T) hours, and Practical (P) courses consist of hours spent in the laboratory. Credits (C) for a course is dependent on the number of hours of instruction per week in that course, and is obtained by using a multiplier of one (1) for lecture and tutorial hours, and a multiplier of half (1/2) for practical (laboratory) hours. Thus, for example, a theory course having three lectures and one tutorial per week throughout the semester carries a credit of 4. Similarly, a practical having four laboratory hours per week throughout semester carries a credit of 2.

b. Minimum credit requirements

The minimum credit points required for award of a B. Pharm. degree is 208. These credits are divided into Theory courses, Tutorials, Practical, Practice School and Project over the duration of eight semesters. The credits are distributed semester-wise as shown in Table IX. Courses generally progress in sequences, building competencies and their positioning indicates certain academic maturity on the part of the learners. Learners are expected to follow the semester-wise schedule of courses given in the syllabus. The lateral entry students shall get 52 credit points transferred from their D. Pharm program. Such students shall take up additional remedial courses of 'Communication Skills' (Theory and Practical) and 'Computer Applications in Pharmacy' (Theory and Practical) equivalent to 3 and 4 credit points respectively, a total of 7 credit points to attain 59 credit points, the maximum of I and II semesters.

The six monthly progress reports shall be submitted by the Research Advisory Committee with a copy to the research scholar.
- (j) In case the progress of the research scholar is unsatisfactory, the Research Advisory Committee shall record the reasons for the same and suggest corrective measures. If the research scholar fails to implement

these corrective measures, the Research Advisory Committee may recommend to the Institution/College with specific reasons for cancellation of the registration of the research scholar.

- (k) The Academic Council of the University shall evolve a mechanism using well developed software and gadgets to detect plagiarism and other forms of academic dishonesty.
- (l) While submitting for evaluation, the dissertation/thesis shall have an undertaking from the research scholar and a certificate from the Research Supervisor attesting to the originality of the work, vouching that there is no plagiarism and that the work has not been submitted for the award of any other degree/diploma of the same Institution where the work was carried out, or to any other Institution.
- (m) The Ph.D. thesis submitted by a research scholar shall be evaluated by his/her Research Supervisor and at least two external examiners, who are not in employment of the University of whom one examiner may be from outside the country.
- (n) The *viva-voce* examination, based among other things, on the critiques given in the evaluation report, shall be conducted by the Research Supervisor and at least one of the two external examiners, and shall be open to be attended by Members of the Research Advisory Committee, all faculty members of the Department, other research scholars and other interested experts/researchers.
- (o) The public *viva-voce* of the research scholar to defend the dissertation/thesis shall be conducted only if the evaluation report(s) of the external examiner(s) on the dissertation/thesis is/are satisfactory and include a specific recommendation for conducting the *viva-voce* examination.
- (p) If the evaluation report of the one of external examiner is unsatisfactory and does not recommend *viva-voce*, the Institution shall send the dissertation/ thesis to another external examiner out of the approved panel of examiners and the *viva-voce* examination shall be held only if the report of the latest examiner is satisfactory and if the report of the latest examiner is also unsatisfactory, the dissertation/ thesis shall be rejected and the research scholar shall be declared ineligible for the award of the degree.

10 EVALUATION AND ASSESSMENT:

The overall minimum credit requirement, including credit for the course work, for the award of M.Phil. degree shall not be less than 24 credits.

Upon satisfactory completion of course work, and obtaining the marks/grade prescribed M.Phil. Scholar shall be required to undertake research work and produce a draft dissertation within a reasonable time, as stipulated by the Institution concerned based on these Regulations.

Prior to the submission of the dissertation/thesis, the scholar shall make a presentation in the Department before the Research Advisory Committee of the University which shall also be open to all faculty members and other research scholars. The feedback and comments obtained from them may be suitably incorporated into the draft dissertation in consultation with the Research Advisory Committee.

M.Phil scholars shall present at least one (1) research paper in a conference/seminar before the submission of the dissertation for adjudication, and produce evidence for the same in the form of presentation certificates and/or reprints.

The Academic Council of the University shall ensure using well developed software and gadgets to detect plagiarism and other forms of academic dishonesty. While submitting for evaluation, the dissertation shall have an undertaking from the research scholar and a certificate from the Research Supervisor attesting to the originality of the work, vouching that there is no plagiarism and that the work has not been submitted for the award of any other degree/diploma of the same Institution where the work was carried out, or to any other Institution.

The M.Phil. Dissertation submitted by a research scholar shall be evaluated by his/her Research Supervisor and at least one external examiner who is not in the employment of the University.

The *viva-voce* examination, based among other things, on the critiques given in the evaluation report, shall be conducted by Supervisor and External Examiner together, and shall be open to be attended by Members of the Research Advisory Committee, all faculty members of

the Department, other research scholars and other interested experts/researchers.

The public *viva-voce* of the research scholar to defend the dissertation shall be conducted only if the evaluation report(s) of the external examiner(s) on the dissertation is satisfactory and include a specific recommendation for conducting the *viva-voce* examination. If the evaluation report of the external examiner is not satisfactory it shall be send to another external examiner out of the approved panel of examiners and the *viva-voce* examination shall be held only if the report of the latest examiner is satisfactory. If the report of the latest examiner is also unsatisfactory, the dissertation shall be rejected and the research scholar shall be declared ineligible for the award of the degree.

The Institutions shall develop appropriate methods so as to complete the entire process of evaluation of M.Phil. Dissertation thesis within a period of six months from the date of submission of the dissertation.

ORDINANCE NO. 74**BACHELOR OF MEDICINE AND BACHELOR OF SURGERY (M.B.B.S.)****AIMS & OBJECTIVES****AIMS**

Graduate medical curriculum is oriented towards training students to undertake the responsibilities of a physician of first contact who is capable of looking after the preventive, promotive, curative & rehabilitative aspect of medicine.

With wide range of career opportunities available today, a graduate has a wide choice of career opportunities. The training, though broad based and flexible shall aim to provide an educational experience of the essential required for health care in our country. Training is designed to meet internationally acceptable standards.

To undertake the responsibilities of service situations which is a changing condition and of various types, it is essential to provide adequate placement training tailored to the needs of such services as to enable the graduates to become effective instruments of implementation of those requirements. To avail of opportunities and be able to conduct professional requirements, the graduate shall endeavour to have acquired basic training in different aspects of medical care.

The importance of the community aspects of health care and of rural health care services is to be recognized. This aspect of education & training of graduates shall be adequately recognized in the prescribed curriculum. Its importance has been systematically upgraded over the past years and adequate exposure to such experiences should be available throughout all the three phases of education & training. This has to be further emphasized and intensified by providing exposure to field practice areas and training during the internship period. The aim of the period of rural training during internship is to enable the fresh graduates to function efficiently under such settings.

The educational experience shall emphasize health and community orientation instead of only disease and hospital orientation or being-concentrated - on-curative -aspects. As such -all the basic concepts of modern scientific medical education are to be adequately dealt with.

There, must be enough experiences to be provided for self learning. The methods and techniques that would ensure this must become a part of teaching-learning process.

The medical graduate of modern scientific medicine shall endeavour to become capable of

functioning independently in both urban and rural environment. He/she shall endeavour to give emphasis on fundamental aspects of the subjects taught and on common problems of health and disease avoiding unnecessary details of specialization.

The importance of social factors in relation to the problem of health and diseases shall receive proper emphasis throughout the course and to achieve this purpose, the educational process shall also be community based than only hospital based. The importance of population control and family welfare planning shall be emphasized throughout the period of training with the importance of health and development duly emphasized.

Adequate emphasis is to be placed on cultivating logical and scientific habits of thought, clarity of expression and independence of judgment, ability to collect and analyse information and to correlate them.

The educational process shall be placed in a historic background as an evolving process and not merely as an acquisition of a large number of disjointed facts without a proper perspective. The history of Medicine with reference to the evolution of medical knowledge both in this country and the rest of the world shall form a part of this process.

Lectures alone are generally not adequate as a method of training and are a poor means of transferring/acquiring information and even less effective at skill development and in generating the appropriate attitudes. Every effort shall be made to encourage the use of active methods related to demonstration and on firsthand experience. Students will be encouraged to learn in small groups, through peer interactions so as to gain maximal experience through contacts with patients and the communities in which they live. While the curriculum objectives often refer to areas of knowledge or science, they are best taught in a setting of clinical relevance and hands on experience for students who assimilate and make this knowledge a part of their own working skills.

The graduate medical education in clinical subjects shall be based primarily on out-patient teaching, emergency departments and within the community including peripheral health care institutions. The out-patient departments shall be suitably planned to provide training to graduates in small groups.

Clinics shall be organised in small groups of preferably not more than 10 students so that a teacher can give personal attention to each student with a view to improve his skill and competence in handling of the patients.

Proper records of the work shall be maintained which will form the basis for the students' internal assessment and shall be available to the inspectors at the time of inspection of the

college by the Medical Council of India.

Maximal efforts shall be made to encourage integrated teaching between traditional subject areas using a problem based learning approach starting with clinical or community cases and exploring the relevance of various preclinical disciplines in both understanding and resolution of the problem. Every attempt shall be made to de-emphasize compartmentalisation of disciplines so as to achieve both horizontal and vertical integration in different phases.

Every attempt shall be made to encourage students to participate in group discussions and seminars to enable them to develop personality, character, expression and other faculties which are necessary for a medical graduate to function either in solo practice or as a team leader when he begins his independent career. A discussion group shall not have more than 20 students.

Faculty member shall avail modern educational technology while teaching the students and to attain this objective, Medical Education Units/ Departments shall be established in the medical college for faculty development and providing learning resource material to teachers.

To derive maximum advantage out of this revised curriculum, the vacation period to students in one calendar year shall not exceed one month, during the 4 th years Bachelor of Medicine and Bachelor of Surgery (MBBS) Course.

Institution shall insure that adequate financial and technical inputs are provided.

History of Medicine the students will be given an outline on History of Medicine. This will be taught in an integrated manner by subject specialists and will be coordinated by the Medical Education Unit of the Institution.

The Institution shall have a curriculum committee which would plan curricula and instructional method which will be regularly updated.

Integration of ICT in learning process will be implemented.

COURSE STRUCTURE

TRAINING PERIOD AND TIME DISTRIBUTION

Every student shall undergo a period of certified study extending over 4 1/4 academic years divided into 9 semesters, (i.e. of 6 months each) from the date of commencement of his study for the subjects comprising the medical curriculum to the date of completion of the examination and followed by one year compulsory rotating internship. Each semester will consist of approximately 120 teaching days of 8 hours each college working time, including one hour of lunch.

The period of 4.4 years is divided into three phases as follows --

Phase-1 (two semesters) - consisting of Pre-clinical subjects (Human Anatomy, Physiology including Bio-Physics, Bio-chemistry and introduction to Community Medicine including Humanities). Besides 60 hours for introduction to Community Medicine including Humanities, rest of the time shall be somewhat equally divided between Anatomy and Physiology plus Biochemistry combined (Physiology 2/3 & Biochemistry 1/3).

Phase-II (3 semesters) - consisting of para-clinical/ clinical subjects. During this phase teaching of para-clinical and clinical subjects shall be done concurrently. The para-clinical subjects shall consist of Pathology, Pharmacology, Microbiology, Forensic Medicine including Toxicology and part of Community Medicine.

The clinical subjects shall consist of all those detailed below in

Phase III. Out of the time for Para-clinical teaching approximately equal time be allotted to Pathology, Pharmacology, Microbiology and Forensic Medicine and Community Medicine combined (1/3 Forensic Medicine & 2/3 Community Medicine). See Appendix-C.

Phase-III (Continuation of study of clinical subjects for seven semesters after passing Phase-I)

The clinical subjects to be taught during Phase II & III are Medicine and its allied specialties, Surgery

and its allied specialties, Obstetrics and Gynaecology and Community Medicine.

Besides clinical posting as per schedule mentioned herewith, rest of the teaching hours be divided for didactic lectures, demonstrations, seminars, group discussions etc. in various subjects. The time distribution shall be as per Appendix-C.

INTERNSHIP

General –

Internship is a phase of training wherein a graduate is expected to learn methods/modalities for actual practice of medical and health care and acquire skills under supervision so that he/she may become capable of functioning independently.

In order to make trained work force available, it may be considered as a phase of training wherein the graduate is expected to conduct actual practice under the supervision of a trained doctor. The learning methods and modalities have to be done during the MBBS course itself with larger number of hands on session, practice on simulators including zoos models.

Specific Objectives

At the end of the internship training, the student shall be able to:

Diagnose clinical common disease conditions encountered in practice and make timely decision for referral to higher level;

Use discreetly the essential drugs, infusions, blood or its substitutes and laboratory services.

Manage all type of emergencies-medical, surgical obstetric, neonatal and paediatric, by rendering first level care;

Demonstrate skills in monitoring of the National Health Programme and schemes, oriented to provide preventive and promotive health care services to the community;

Develop leadership qualities to function effectively as a leader of the health team organised to deliver the health and family welfare service in existing socio-economic, political and cultural environment;

Render services to chronically sick and disabled (both physical and mental) and to communicate

effectively with patient and the community.

Time allocation to each discipline is approximate and shall be guided more specifically by the actual experience obtained. Thus a student serving in a district or taluk hospital emergency room may well accumulate skill in surgery, orthopaedics, medicine, obstetrics and Gynaecology and Paediatrics during even a single night on duty.

Responsible authorities from the medical college shall adjust the intern experience to maximize intern's opportunities to practice skills in patient care in rough approximation of the time allocation suggested.

Internship –

Structure of internship and their time table fixed as per the norms of Medical Council of India

Every candidate will be required after passing the final MBBS examination to undergo compulsory rotational internship to the satisfaction of the College authorities and university for a period of 12 months so as to be eligible for the award of the degree of Bachelor of Medicine and Bachelor of Surgery (MBBS) and full registration.

The University shall issue a provisional MBBS pass certificate on passing the final examination.

The provisional registration will be for a period of one year. In the event of the shortage or unsatisfactory work, the period of provisional registration and the compulsory rotating internship may be suitably extended by the appropriate authorities.

The intern shall be entrusted with clinical responsibilities under direct supervision of senior medical officer. They shall not be, working independently.

Interns will not issue a medical certificate or a death certificate or a medico-legal document under their signature.

Adjustment to enable a candidate to obtain training in elective clinical subjects may be made.

One year's approved service in the Armed Forces Medical Services, after passing the final MBBS examination shall be considered as equivalent to the pre-registration training detailed above; such training shall, as far as possible, be at the Base/General Hospital.

Assessment of Internship

The intern shall maintain a record of work which is to be verified and certified by the medical officer under whom he works. Apart from scrutiny of the record of work, assessment and evaluation of training shall be undertaken by an objective approach using situation tests in knowledge, skills and attitude during and at the end of the training. Based on the record of work and date of evaluation, the Dean/Principal shall issue Certificate of satisfactory completion of training, following which the University shall award the MBBS degree or declare him eligible for it.

Satisfactory completion shall be determined on the basis of the following:-

- Proficiency of knowledge required for each case
- The competency in skills expected to manage each case:
 - a) Competency for performance of self performance,
 - b) of having assisted in procedures,
 - c) of having observed.
- Responsibility, punctuality, work up of case, involvement in treatment, follow-up reports.
- Capacity to work in a team (Behaviour with colleagues, nursing staff and relationship with paramedicals).
- Initiative, participation in discussions, research aptitude.

Poor / Fair / below average / average / above average / excellent

A Score of less than 3 in any of above items will represent unsatisfactory completion of internship.

Full registration shall only be given by the State Medical Council/Medical Council of India on the award of the MBBS degree by the university or its declaration that the candidate is eligible for it.

SCHEME OF WRITTEN EXAMINATION:

The written examination in each subject shall consist of one paper of three hours duration and shall have maximum marks of 70. The paper shall contain Section A & B with 30 marks each and Section C with 10 marks.

In all the subjects Section C shall contain 20 Objective type questions carrying 1% mark each. Section C shall be printed as a separate paper and shall be supplied to students after 30 minutes of commencement time of theory examination. The students shall answer Section C immediately and the papers shall be collected back after 20 minutes.

In the subjects of Physiology & Biochemistry and Pathology & Microbiology each paper will be divided into two parts with Physiology in part A and Biochemistry in part B, similarly Pathology in part A and Microbiology in part B with 30 mark each. Section C1 and C2 shall contain 10 Objective type questions from respective subjects.

The nature of questions set, will be aimed to evaluate students of different standards ranging from average to excellent,

The questions should cover as broad an area of the content of the course. The essay questions should be properly structured and the marks specifically allotted.

SCHEME OF PRACTICAL / CLINICAL EXAMINATION: Objective Structured Clinical Evaluation:

The clinical and practical examinations should provide a number of chances for the candidate to express one's skills. A number of examination stations with specific instructions to be provided. This can include clinical procedures, laboratory experiments, spotters etc. Evaluation must be made objective and structured. The method of objective structured clinical examinations should be followed. This will avoid examiner bias because both the examiner and the examinee are given specific instructions on what is to be observed at each station.

Record & Log Books:

The candidate should be given credit for his/her records based on the scores obtained in the record. The marks shall form part of practical/clinical examination.

VIVA VOCE:

Viva voce is an excellent mode of assessment because it permits a fairly broad coverage and it can assess the problem solving capacity of the student. An assessment related to the affective domain is also possible through viva voce. It is desirable to conduct the viva voce independently by each examiner. In order to avoid vagueness and to maintain uniformity of standard and coverage, questions can be pre-formulated before administering them to each student. Twenty marks are exclusively allotted for viva voce and that can be divided equally among the examiners, i.e., 10 marks per examiner.
